

Attorney Frank Gleason quoted in WBJ article touting key role patent attorneys play

February 9, 2026 | In The News

Attorney Frank Gleason is quoted in the *Worcester Business Journal* article, “*Protecting innovation: Patent attorneys are the behind-the-scenes MVPs turning innovation into businesses,*” exploring the area’s history as an innovation hub and the key role patent attorneys played, and continue to play, in innovators’ success.

“Even when an entrepreneur or inventor has a legitimate claim to intellectual property, that doesn’t mean it’s going to lead to a short or easy legal battle,” said Gleason. “Fights over IP often become a battle of resources, necessitating the consideration of how much a battle over is going to cost, and what could actually be won.”
