Experience Matters

Mirick attorneys have been trusted advisors to healthcare clients for over a century, so we fully understand the complex needs, challenges, and opportunities that the healthcare industry faces.

Our clients, including some of the major leaders in the region such as UMass Memorial Healthcare system, Milford Regional Medical Center, Mass General Brigham system, not only appreciate our industry insights, but they view us as their strategic partner, as do many health care providers and businesses.

We represent both for-profit and tax-exempt healthcare providers and organizations in connection with all aspects of their practice and operations.

- Hospitals
- Academic medical centers
- Licensed clinics
- Large and small physician practices
- Direct primary care practices
- Ambulatory surgery centers
- Nursing homes
- Digital health companies
- Telemedicine practices

Real-world Solutions

As a full-service law firm, our Healthcare Industry group collaborates with attorneys from across the firm to provide comprehensive legal advice and real-world solutions that help our clients meet their business objectives, address claims and grievances effectively, and keep in compliance with the ever-changing and highly regulated healthcare laws.

Experience:

Digital Health

Start-ups and mature companies alike turn to Mirick when entering the digital health space. We advise clients at all stages to evaluate, develop, and implement solutions in an ever-changing and competitive healthcare environment.

- Collection and use of data
- Managing compliance risks
- Evaluating opportunities in light of applicable regulatory requirements such as HIPAA and other privacy and security requirements

Our attorneys draft contracts, including software as service agreements, subscription agreements, terms of use, and privacy policies.

At Mirick, we gain a full understanding of our client's mission and goals to provide a smooth path and minimize unexpected outcomes.

Regulatory and Compliance

Our regulatory and compliance attorneys aid clients of all types, whether hospitals, physician groups, individual clinicians, or digital health companies, in navigating the complex regulatory field of the healthcare industry.

We guide clients through the regulatory maze governing the healthcare industry, including HIPAA, the Stark Law, and Anti-Kickback Statute.

Our attorneys also routinely assist clients with many issues that arise in the healthcare field, such as:

- Investigations
- Licensure issues
- Privacy and security breaches
- Development or maintenance of policies, procedures, and compliance programs

Transactional

Our Health Law Group has extensive experience assisting for-profit and non-profit healthcare industry clients with strategic alliances, mergers and acquisitions, and general operations.

We draft, review, and negotiate contracts involving all aspects of our healthcare clients' businesses, including contracts with:

- Vendors
- Third-party payors
- Individual physicians and physician groups
- Medical device manufacturers
- Real estate

We handle employment issues, labor disputes, employee benefit matters, and executive compensation. We also assist our healthcare clients with real property leasing, permitting, zoning, construction, and conveyancing.
