

Service
Financing

We routinely work with commercial lenders and borrowers, major lending institutions, and other institutional and non-institutional lenders and investors in structuring, documenting, and negotiating all types of secured and unsecured debt and equity financings.

It's in the Details

Both private and publicly traded companies from a myriad of industries turn to Mirick for our attention to detail and responsive service in handling a variety of early-stage and late-stage capital-raising transactions, including angel investments through later-stage preferred stock and mezzanine financings.
